

What's Happening Wednesday

Kansas Immunization Program

NOTE: Next week's WHW will come out on Thursday due to our offices being closed for the holiday on Wednesday November 11th.

November 4th 2015

Vaccines for Children

VFC Nurse on Call -Nurse on Call until November 9th is Jayme Lewis. Jayme can be reached at jalewis@kdheks.gov or 785-213-6337. The nurse on call starting November 9th is Betty Grindol bgrindol@kdheks.gov or 316-239-5970

Chief Chat – The Regional Nurse Consultants are meeting this week and would like to make a couple of announcements related to preparing for some upcoming events. First, a new upgrade to WebIZ will be released on November 20th at the end of the day. With this new version, tokens will no longer be required. Please be watching for upcoming emails related to this change as EVERYONE will be required to set a new password. You will receive an email with all the required instructions and will have 14 days to reset your password and establish your new security questions. Anyone who does not reset within that 14 days will be locked out of the system automatically and will have to work with the Immunization helpdesk to establish your account.

In meeting with the nurses and other staff this week, we are preparing for the 2016 VFC re-enrollment process. We will once again this year use the IV-4 system for re-enrolling and are making some changes to streamline the process even more than previously. Look for upcoming announcements regarding this in the weeks to come. As we prepare, this is a good time for everyone to check in the IV-4 system to assure your contacts and users are current. One new feature this year will be a question asking that you project your 2016 influenza vaccine needs as this will help us to better prepare for pre booking the state pre book plan. I am alerting you to this now as we are in the midst of the 2015 flu season because this is a good opportunity for you to consider the amount of flu vaccines you are using and may help in predicting your needs for 2016.

We received notice yesterday that Blue Cross and Blue Shield has partnered with Dillon's Pharmacy across the state to offer free flu vaccinations November 7th – 15th. This may be a good opportunity for you to make referral to those you are unable to vaccinate for any reason. For those who have any insurance, BCBS is paying the co-pays (insurance may be with carrier) and for those who have no insurance, the vaccine will be given at no cost to anyone 6 years of age and older. The flyer for this event with all the details may be found at the end of this *What's Happening Wednesday*.

Finally, at the end of last week, we received our quarterly report from CDC of HPV Vaccination data. I am very pleased to announce we are on a record setting pace for Publically Ordered HPV Vaccination Doses and are already 22.7% ahead of this time last year. Please review the full report found in this issue of *What's Happening Wednesday* and thank you for all the effort being put forth to prevent HPV related cancers in Kansas. Your commitment is making a difference.
Phil Griffin-Deputy Director, Bureau of Disease Control and Prevention

VFC Question of the Week-

Q: There was an X on the Sensitech datalogger monitor when I read the temperature today. The current temperature reads that the temperature is okay. What does that mean?

A: Even though the current temperature is in proper range now, the X indicates that the monitor recorded a temperature that was out of proper temperature range since the last time you downloaded the monitor.

1. Quarantine the vaccine

2. Download the datalogger monitor to Cold Stream. Note: Document what action was taken in the note section. The KIP nurses receive this note and an alarm summary report in an email.

The clinic staff must correct, manage and document the issue immediately.

3. Review the temperature reports in Cold Stream. Evaluate the reason for the out-of-range temperature readings;

- When and how long the temperatures were out of range?
- What was the highest and lowest temperatures recorded?
- Where was the monitor placed?
- Are there water jugs or bottles placed in the unit?

4. Call the regional nurse or nurse on call to discuss the alarm and your plan of action.

Adolescent Vaccine Posters Ready to Order

We have a limited amount of Adolescent Immunization posters in English and Spanish printed and ready to order. They are free and located on our Educational Material Order Center located here:

<http://www.orderscenter.com/cart.asp?MerchantID=IPEDKDHE&Action=Catalog&Type=OnePage&ID=1>

Vaccine-Preventable Disease Outbreaks

Pertussis “Whooping Cough” – RENO COUNTY: The outbreak is slowing down. Ninety cases have been linked to the outbreak and even though some additional cases are still being investigated, no new cases have recently been identified. If this holds true, the outbreak will be declared over as of November 6, 2015.

For updated case counts of any EPI reportable disease, please visit the KDHE webpage at http://www.kdheks.gov/epi/case_reports_by_county.htm. Please note these numbers are preliminary and are subject to change based on case review. For any questions about reporting or for technical assistance please call the KDHE epidemiology hotline at 877-427-7317.

Influenza Surveillance

Influenza-like Illness Network (ILINet) sites are monitoring patients for influenza-like illness (ILI) symptoms include a fever (≥ 100 degrees F) and the presence of a cough and/or sore throat. ILINet sites also submit up to two specimens for testing at the Kansas Health and Environmental Laboratories (KHEL). These specimens help monitor what types of influenza are present in Kansas. During the week ending October 31, ILINet sites reported 1.2% of visits were due to influenza-like illness. This is below the regional ILI baseline of 1.7%. There have been no positive influenza specimens tested at KHEL.

Influenza Vaccine Available

We currently have stock in the following presentations:

Updates to the available doses will be posted weekly in the What's Happening Wednesday newsletter. If you have questions regarding FluMist delays, how flu orders are filled, and availability, please refer to the 2015-2016 Seasonal Flu communication or contact Jackie Strecker at 877-296-0464 or vaccine@kdheks.gov.

2015-2016 PEDIATRIC SEASONAL FLU CHART - UPDATED 11/4/15

Manufacturer	Brand	NDC	Age	Presentation	VFC Available	CHIP Available

Immunization Action Coalition “Needle Tips” Newsletter Posted

The focus of this issue is meningococcal vaccine recommendations for MenB and MenACWY, including many new related "Ask the Experts" Q&As from CDC medical officer Andrew T. Kroger, MD, MPH, and nurse educator Donna L. Weaver, RN, MN. Updated versions of IAC's 5-page "Summary of Recommendations for Child/Teen Immunization" and "Summary of Recommendations for Adults" are also included, along with several additional items.

Human Papillomavirus (HPV) Vaccination Report: Kansas

Working Together to Reach National Goals for HPV Vaccination

October 2015

Three vaccinations are recommended for adolescents aged 11-12 years: human papillomavirus (HPV), tetanus, diphtheria, and acellular pertussis (Tdap), and meningococcal (MenACWY). Nationally, HPV vaccination coverage lags behind other adolescent vaccination coverage estimates and remains far below *Healthy People 2020* targets of 80% coverage for adolescents aged 13-15 years. While previous HPV vaccination quarterly reports have presented HPV vaccine coverage among adolescents aged 13-17 years, this report focuses on **HPV vaccination coverage estimates among adolescents aged 13-15 years** using 2014 National Immunization Survey-Teen (NIS-Teen) data. The focus on this age group is intended to demonstrate that more efforts are needed to achieve *Healthy People 2020* HPV vaccination targets and ensure timely vaccination of adolescents at ages 11-12 years against vaccine-preventable, HPV-associated cancers.

2015 HPV Vaccine Ordering Trends in Kansas

CDC recommends examining vaccine ordering data for trends to approximate recent HPV vaccination uptake, as ordering data can inform action in real time. Reviewing ordering data at the health system or clinic level can help target outreach activities to clinicians or facilities with inconsistent or lower ordering patterns.

Cumulative Year-to-date Total of Publicly* Ordered HPV Vaccination Doses in KS (2012-2015)

Cumulative Year-to-Date Total of Publicly* Ordered HPV Vaccination Doses, KS (2014-2015)

	2014	2015	% change
Jan	1,850	1,360	-26.5%
Feb	3,340	3,060	-8.4%
Mar	4,930	4,730	-4.1%
Apr	7,360	7,090	-3.7%
May	9,460	9,170	-3.1%
Jun	11,200	11,610	3.7%
Jul	13,680	14,860	8.6%
Aug	17,830	19,610	10.0%
Sept	20,910	25,660	22.7%
Oct	24,270		
Nov	27,140		
Dec	28,860		

CDC. Vaccine Tracking System (VTrackS). October 2015.

*Defined as orders for publicly funded vaccine (i.e. Vaccines for Children, 317, state/local, or CHIP doses).

KSWEBIZ Trainings

Aggregate Inventory Training

The Aggregate Inventory Training occurs the first Friday of every month from 10:30 -11:30 a.m. This call will go over the basics of the On Hand, Reconciliation (MIR submission) and Vaccine Ordering windows in KSWebIZ for Aggregate Users. Bring questions and examples of issues that your clinic is having with the end of the month reporting. **Please note:** this call is for KSWebIZ Aggregate Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/6325908572768310795>

Direct Entry Inventory Training

The Direct Entry Inventory Training occurs the first Friday of every month from 12 -1 p.m. This call will go over the basics of the On Hand, Reconciliation (MIR submission) and Vaccine Ordering windows in KSWebIZ. Bring questions and examples of issues that your clinic is having with the end of the month reporting. **Please note:** this call is for KSWebIZ Direct Entry Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/2218486074629690891>

New User Training

The New User Training occurs the second Friday of every month from 12 -1 p.m. This basic training is for new KSWebIZ users, or people who would like a simplified refresher training on how to use KSWebIZ. We will be going over log-in, adding history, administering vaccinations, printing consents and pink cards. If you are a new user, have a new token, or recently had a token transferred to you please take the time to sit in on this training! **Please note:** this call is for KSWebIZ Direct Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/3511041157917578763>

School Module Training

The School Module Training occurs the third Friday of every month from 9 - 10 a.m. This basic training is for new KSWebIZ school module users, or people who would like a simplified refresher training. **Please note:** this call is for KSWebIZ School Module Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Register now for the date that works best for you! <https://attendee.gotowebinar.com/rt/2641307669137463042>

Reports Training

The Reports Training occurs the fourth Friday of every month from 12 - 1 p.m. This training is for KSWebIZ users who are wanting to learn more about the KSWebIZ Reports. We will be going over the various reporting sections and how to generate reports within these sections. We hope you have time to sit in on this training! **Please note:** this call is for KSWebIZ Direct Users Only! After registering, you will receive a confirmation email containing information about joining the webinar.

Vaccine Redistribution

Please email any additions or changes to be made on the Vaccine Redistribution lists with subject matter "Redistribution" to vaccine@kdheks.gov or call toll free at 1-877-296-0464
http://www.kdheks.gov/immunize/vaccine_redistribution.htm

REMINDERS: Providers may place the excess doses on the KIP Redistribution list if:

- 1) The vaccine has a minimum of 90 days and a maximum of 365 days before the vaccine's expiration date;
- 2) The ordering provider is responsible for any doses which expire on the redistribution list that have not been accepted for transfer to another VFC provider;
- 3) Providers accepting vaccine from the redistribution list are responsible for using the doses once they are transferred. KIP encourages providers to accept only doses they can administer before the expiration date;
- 4) The transferring and receiving provider will document these doses on their monthly MIR/reconciliation reports as transferred vaccines.
- 5) Once vaccine is transferred please contact KIP to let us know so we can adjust the redistribution list by either deleting the line or by reducing the amount of doses.
- 6) All vaccines must be in full boxes
- 7) The KIP nurse consultant who is on call must be contacted prior to transferring vaccine
- 8) Providers are responsible for keeping KIP notified if there is a change in amount of doses available for redistribution.
- 9) When placing an order, you may be contacted if the vaccine you are trying to order is on the redistribution list.
- 10) Varicella and Proquad, will not be posted on the VFC or Private Vaccine Redistribution List.

Frozen Varivax vaccines are very intolerant to out of range temperatures. To prevent potential vaccine waste the Kansas Immunization Program requests that Varivax containing vaccines not be transferred to other providers.

Questions regarding transporting vaccine call 877-296-0464 to request assistance.

- Visit your nearby Dillons Pharmacy during regular pharmacy hours
- Provide some basic information, like your name and date of birth
- Show your insurance ID card if you have coverage; if you don't that's okay
- Roll up your sleeve and get a flu shot*
- Leave the store protected – and without having to pay a dime

*Flu shots available to those age 6 and older

Flu shots sponsored by:

**BlueCross
BlueShield
of Kansas**

Blue Cross and Blue Shield of Kansas is an independent licensee of the Blue Cross Blue Shield Association.

MID AMERICA IMMUNIZATION COALITION PRESENTS

IMMUNIZATION SYMPOSIUM 2015

WHO CALLS THE SHOTS?

DATE:

FRIDAY, NOVEMBER 13, 2015

TIME:

7:30 a.m. - 4:00 p.m.

LOCATION:

**OVERLAND PARK MARRIOTT
10800 METCALF AVENUE
OVERLAND PARK, KS 66210**

FEATURED SPEAKERS:

Paul Offit, MD
Chief, Division of Infectious
Diseases and Director, Vaccine
Education Center, Children's
Hospital of Philadelphia

William Atkinson, MD, MPH
Associate Director of Immunization
Education, Immunization Action
Coalition, Saint Paul, Minnesota

TO REGISTER:

CONFERENCE REGISTRATION: \$65
WWW.MCHC.NET

MAIC HAS ROOMS RESERVED AT A GROUP RATE OF \$99.
PLEASE CALL THE HOTEL AT 1-800-228-9290 AND REFERENCE
THE MID AMERICA IMMUNIZATION SYMPOSIUM.

OBJECTIVES:

- ▶ Describe how media impacts perceptions of vaccines/immunizations.
- ▶ Apply lessons learned from past measles epidemics to prepare for future outbreaks.
- ▶ Describe the HPV vaccine as a cancer prevention vaccine.
- ▶ Review current ACIP recommendations to address on-going vaccine issues.
- ▶ Develop strategies to employ when talking with parents about vaccines.
- ▶ Describe an approach to immunizations in today's mobile world.
- ▶ Formulate a plan of action to promote vaccine best practices.

Children's Mercy
KANSAS CITY

MID AMERICA IMMUNIZATION COALITION
IS A PROGRAM OF
MOTHER & CHILD HEALTH COALITION
WWW.MCHC.NET

This program is joint-provided by Mother & Child Health Coalition and Children's Mercy Kansas City.

This educational activity has been awarded 5.5 contact hours.

Children's Mercy Kansas City is an approved provider of continuing nursing education by the Midwest Multistate Division, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
